

CHOICE *of* CHAMPIONS INTERNATIONAL

SUPERDERM SOLUTION®

SUPERDERM SOLUTION is formulated through a complex, multi-staged, synthesis process using USDA certified bio-based products to produce a wetting agent with a base of colloidal micelles.

The electrostatic properties of this uniquely formulated product attract debris and microorganisms away from the skin like a magnet. The elimination of these stress factors allows the normal and healthy function of skin to be restored.

Ingredients

Processed extracts of coconut, corn, soybean, and tree sap formulated with amino acids, fatty acids, alkanolamines, and nonionic surfactants.

Attributes

Non-toxic, non-carcinogenic
Safe for human contact
Hypoallergenic
Readily biodegradable
No dyes or perfumes.

DIRECTIONS FOR USE

APPLICATION TO WET COAT:

Wash animal at least once a week and more if necessary. Thoroughly wet the affected area with water. Spray **SUPERDERM SOLUTION** generously on the area. Gently massage into the skin and allow to stand for 5 minutes before rinsing well with water. Repeat daily until improvement is observed.

APPLICATION TO DRY COAT: Spray dry coat of affected area generously with **SUPERDERM SOLUTION** until very wet. Let stand and dry. Repeat one to three times daily until improvement is observed.

WOUND CLEAN-UP: Clean and rinse area thoroughly with water. Gently apply **SUPERDERM SOLUTION** with a sponge or cloth. Let stand and dry. Repeat on a daily basis.

STORAGE:

CHOICE OF CHAMPIONS products should be stored at 40-80 degrees Fahrenheit. Extreme hot and cold temperatures and direct sunlight may cause ingredient breakdown. When properly stored, **SUPERDERM SOLUTION** has a shelf life of two years.

PLEASE NOTE:

This product will not test positive for FEI or USEF and is completely safe to use during competition for horses.
